

PROJECT UPDATE

Energy Transfer Partners' Dakota Access Pipeline Project Hires Key Agricultural Services and Duraroot for Land Reclamation Services

Key Ag Services and Duraroot will monitor and advise the survey, acquisition, and construction phases of the pipeline project

DALLAS, January 6, 2015 – Energy Transfer Partners, L.P. (NYSE: ETP) has hired Key Agricultural Services, Inc. of Macomb, IL and Duraroot of Colorado Springs, CO to serve as independent sources of agriculture expertise to advise and monitor the acquisition, construction and reclamation processes of its proposed 1,134 mile Dakota Access Pipeline Project (DAPL).

Key Agricultural Services and Duraroot will work with landowners along the route to develop site-specific agricultural mitigations plans to ensure the full restoration of all impacted land. ETP's commitment to landowners extends from initial surveys to the reclamation of land after construction through the ongoing operation and maintenance of the proposed crude oil pipeline that will carry domestically produced oil through North Dakota, South Dakota, Iowa, and Illinois.

The track record and commitment of these companies to protecting valuable natural resources will aid in the construction process of the Dakota Access Pipeline. In addition to working with landowners, Key Agricultural Services and Duraroot also will be important overseers of the entire construction process to ensure land, soil, and other resources are respected and returned to their pre-construction state.

Additionally, ETP has committed to using union labor, with at least 50% of the workers sourced locally, to construct the pipeline. ETP is also committed to procuring local products and services during the construction process when possible to provide an economic boost to the communities along the route.

ETP hopes to receive the appropriate permits by late 2015 with a projected in service date for the pipeline of the fourth quarter of 2016. For more information on the project, visit www.energytransfer.com/ops_copp.aspx or call 844-708-2639.

Editor's Note: This project update is the first in a series of ongoing updates that will be provided by DAPL/Energy Transfer Partners.

###

Energy Transfer Partners, L.P. (NYSE: ETP) is a master limited partnership owning and operating one of the largest and most diversified portfolios of energy assets in the United States.
